A.A.A.A.
Victorian Networking Event

On behalf of the National Council of the Australian Automotive Aftermarket Association, we invite you to join fellow AAAA members for an industry forum.

Stuart Charity, Executive Director of the AAAA, will update you on the Association's activities and you will also have the opportunity to network with the AAAA National Council and your industry colleagues.

Special Guest Speaker, Chris Connolly, Chris commenced his AFL career as a player for the Melbourne Football Club playing 84 games between 1984 and 1989 before moving into the coaching arena. He was assistant coach of Hawthorn Football Club from 1991-1995 and at the conclusion of the 2001 season was appointed senior coach of Fremantle to rebuild the football department and establish on-field credibility. Chris moulded a skilled and accountable group of players that saw Fremantle reach the 2006 preliminary final and become one of the AFL's success stories. In late 2007 Chris made his homecoming to Victoria and the Melbourne Demons. He took the role of head of football operations in readiness for the 2008 season. With red and blue blood running through his veins Chris has now set himself on rebuilding the oldest and proudest club in the league back to its powerful best. Chris is a much sought after corporate speaker and the AAAA is proud to have Chris speaking at this event. He has the ability to articulate the elements of success in a humorous, motivational and down-to-earth style which is always a winner with any audience.
