

INNOVATION LABS & PRODUCT DEVELOPMENT GRANTS SEMINAR

DATE: Wednesday 14th November 2018

TIME: 3:00pm - 5:00pm

VENUE: AAAA Conference Centre
195 Wellington Road
CLAYTON, VIC

COST: FREE for AAAA Members - You MUST register to attend

On behalf of the Australian Automotive Aftermarket Association, we invite you to join fellow AAAA members for a complimentary seminar/webinar to provide further information on our plans to establish Innovation Labs in Victoria and South Australia in addition to a recently released Federal Government Grants Program to support product development and innovation.

The funding is now in place to establish the Innovation Labs which is about to enter a very busy planning and consultation stage. The seminar will open with an overview of the lab, the next steps, and how you can help shape this exciting project to ensure it maximises benefit to your business and our industry.

The seminar will then cover the \$7 million dollars available in grants for businesses to support their automotive product design and development processes. The AAAA has engaged guest speaker Jacky Millership from Grant Thornton to deliver a clear understanding of how these funds can be accessed and the eligibility criteria outlined by the government. Grant Thornton have played a vital role in the success of securing funds for the Innovation Labs and are specialists in grant applications.

Please join us either in person or online to help build a stronger automotive aftermarket sector.

You will receive an email confirmation once you have registered, followed by a meeting invite on Monday 12th November with the online link and conference centre location details.
