Location: Tyrepower
96a Harrington Street
HOBART, TAS
Cost PP: ARCA or TAT Member: \$110.00
Non ARCA or TAT Member: \$130.00

Oscilloscope Mechanical Testing – Pressure Analysis

Date: Saturday 18th May 2019
Time: 9:00am - 3:00pm
Location: Tyrepower
96a Harrington Street
HOBART, TAS
Cost PP: ARCA or TAT Member: \$230.00
Non ARCA or TAT Member: \$250.00

OSCILLOSCOPE DIAGNOSTIC TRAINING TO SAVE YOU TIME AND MONEY

TAT and ARCA have teamed up to deliver you the latest techniques using oscilloscopes and pressure transducers. Even OEM's have recognised the value of oscilloscopes and quite a large number have mandated them as essential equipment for their dealerships. As well as using them for testing sensors and other electronic components, they can be used in conjunction with a pressure transducer or a NVH sensor to analyse mechanical faults very quickly. An example of this is checking the valve timing of a V8 Range Rover, this was completed and a camshaft fault was found in 15 minutes.

Two of the best technicians in the country and regular contributors to the TaT magazine, Brendan Sorensen and Rod Maher, have written a great course for you. With the modern motor vehicle it is more important than ever to invest in professional development for you and your staff.

There are limited places available so be sure to get in quick. We look forward to seeing you there! All prices include light refreshments & finger food.

PLEASE LIST THE NAMES & COMPANIES OF THOSE ATTENDING - RSVP BY MONDAY 13TH MAY 2019
