AFTERMARKET ASSOCIATION

REGIONAL VICTORIA – STAGE 3 RESTRICTIONS IN PLACE

As at 12 August 2020

There is a *Stay at Home* order for regional Victoria in place and mandatory face coverings required across the whole state. For businesses in regional Victoria, you can choose to continue business as an essential service and can provide necessary service and repair to your customer's vehicles. However employers must be enforcing strict social distancing and hygienic practices for employees and customers where possible, including mandatory face coverings.

Workplaces **must** also keep a [register of all public access](#) to your business. There are a range of resources and template available through the AAAA member portal, including procuring [masks and deep cleans direct from suppliers](#), and info on [Government assistance payments](#) if your employees are required to self-isolate.
