The concise financial report is an extract from the financial report for the year ended 30 June 2023. The concise financial report cannot be expected to provide as full of an understanding of the financial performance, financial position and financing and investing activities of the Group as the financial report.

Further financial information can be obtained from the financial report. The financial report, auditor's report and independence declaration will be sent to members on request, free of charge.

WE'RE HERE FOR THE AFTERMARKET

The Australian Automotive Aftermarket Association (AAAA) is the independent national body representing and supporting the automotive aftermarket industry. For over 40 years the AAAA has successfully served this unique, passionate and highly skilled industry. The aftermarket sector contributes over \$25B to the economy, employs over 300,000 people and comprises more than 50,000 business across the country.

As the recognised national aftermarket industry voice, and as a non-profit organisation, the AAAA is strengthened by the support of more than 3,000 member businesses. AAAA members are manufacturers, suppliers and retailers of automotive parts and accessories, tools and equipment, and providers of vehicle service, repair and modification. Our members range from multinational groups employing thousands of workers, through to small family-owned workshops.

Our purpose is to promote and protect the sustainability and development of the automotive aftermarket industry through effective services, representation, and business growth initiatives.

Fighting For Your Rights

The AAAA successfully advocates for member businesses and the aftermarket industry by influencing government policy at local, state and federal levels. Our representation spans design, retail, service and repair, trade and innovation policy, as well as competition and business regulation. From mandatory data sharing to the pressing industry skills shortage, the coming EV transition, Gross Vehicle Mass (GVM) industry standards and much more, the AAAA is creating positive, lasting change to support the future of the industry.

The AAAA was proud to be the driving force behind the long-fought battle to achieve the industry critical Motor Vehicle Information Scheme (MVIS). The new law protects consumers rights to choose their repairer and ensures independent workshops can access service and repair information on fair and reasonable terms. The AAAA was also integral to the operationalisation of the law through the Australian Automotive Service and Repair Authority (AASRA) and the creation of the dedicated AASRA Portal that allows technicians access to vehicle repair and service information.

Supporting Members

AAAA members have access to specialised member services, direct advocacy support, industry-specific business tools, and industry leading market research to support business operations and encourage growth.

Our research offering includes our valuable Car Parc Data Tool. This resource allows workshops, retailers and parts distributors to understand the mix of makes and models in their local neighbourhood, see national level trends and gain demographic insights. We also have a quarterly Aftermarket Dashboard that reports on consumer trends, aftermarket data and business confidence plus a suite of other industry reports and research.

Other valuable member benefits include our free Employer Assist and Legal hotlines, an Australian Automotive Aftermarket Magazine subscription, exclusive webinars, member networking and training events, plus a dedicated member resource portal and more.

Developing Our Industry

A healthy and prosperous industry is a key outcome that drives the AAAA's important work and responsibilities. The AAAA is uniquely positioned to assist. We promote and seek the best for our industry through our government advocacy work, while our in-depth market research monitors the health of our industry and allows us to effectively respond to threats and challenges.

Priority industry issues and development areas of AAAA focus include the number one industry challenge, the automotive skills shortage, preparing the industry for the EV transition, the AAAA's own consumer-focused Choice of Repairer campaign. This campaign educates consumers on their rights and supports the sustainability of our independent repair, parts, modification and service sector.

The AAAA offers a free to industry Workshop Health Check (survey.aaaa.com.au) that helps businesses better understand how they are tracking in relation to other workshops across the country.

To acknowledge and reward excellence in the industry, the AAAA hosts the 'Australian Automotive Aftermarket Awards', the premier national night-of-nights which celebrates outstanding performance and contributions within the aftermarket.

The AAAA proudly hosts some of the country's largest automotive industry events. In June, we held the hugely successful Autocare 2023, Australia's leading education led convention for automotive technicians and workshop owners. In April 2024, we will host Australia's largest aftermarket industry event, the Australian Auto Aftermarket Expo & Collision Repair Expo.

The Auto Innovation Centre (AIC) was an exciting industry initiative launched by the AAAA in 2019 to support the local manufacturing industry. The cutting-edge AIC facility in Melbourne transforms product development capability for businesses large and small across the country. The AIC offers a unique mix of vehicle testing, and product testing capability, equipment, technology, scan data and expertise that is highly respected within the industry.

Specialisation

The AAAA understands the aftermarket is broad and different industry sectors require experts to champion their specific causes. AAAA specialist councils make a lasting impact through advocacy and government influence, research, events and communications. AAAA specialist councils include the Automotive Repairers Council of Australia (ARCA), the 4WD Industry Council (4WDIC), Performance Racing and Tuning Council (PRTC), and the Automotive Product Manufacturers and Exporters Council (APMEC).

Communication

Leadership, advice and support is critical to automotive businesses across the country. The AAAA is renowned as the go-to source of accurate, timely and relevant industry information. Our team utilises a broad toolkit of communication channels to ensure members, and the aftermarket industry are promptly informed on the issues that matter.

The AAAA also produces the industry leading journal, the Australian Automotive Aftermarket Magazine, in both hard copy and as an e-magazine. This publication has remained a pillar of respected industry news, new products, technology and services for over 20 years.

REPORT BY THE CHAIRMAN & CHIEF EXECUTIVE OFFICER

Financial Year 2022/23 saw a year of strong growth for our Association with a welcome return to normal operating rhythms post Covid. Across nearly all aftermarket sectors, our industry continued to enjoy strong consumer demand and favourable business conditions.

The end of the financial year marked the one-year anniversary of the game changing Motor Vehicle Information Scheme (MVIS). The law ensures consumers have a choice of repairer and that independent workshops can efficiently access all manufacturer service and repair information. The law has been transformative for our industry, and we are proud to see it making a positive difference to technicians and workshops across the country.

We have actively supported development of the Australian Automotive Service and Repair Authority (AASRA) to operationalise the new MVIS law. We now have an Executive Officer and support team in place in Australia, and AASRA is financially stable with a strong revenue base. This enables AASRA to invest in the sustainability and improvement of the AASRA Portal for the industry. With over 3,000 subscribers, the Portal is a successful industry tool, and growing rapidly.

With our success championing a right to repair law in Australia, we are actively working with the New Zealand aftermarket industry as they seek to have a similar law introduced for their independent workshops and consumers. We have also provided advice and thrown support behind Australian farmers in their fight to implement a right to repair law for their industry.

Our industry's most pressing challenge is the industry wide skills shortage, and we have worked methodically throughout the year to address this issue at government, industry and workshop level, informed by our dedicated skills strategy. We commissioned industry leading market research to better understand the apprentice journey and industry remuneration. This evidence-based approach has guided our understanding of pain points, enabled us to advocate our findings and recommendations to Government, and provides best-practice advice to our industry. We have also supported the government's new Migration Strategy and offered feedback, with skilled migration another important piece of the puzzle as we unlock growth pipelines for automotive talent.

As our industry gears up for the EV transition, we have formulated an EV Strategy to support our industry through these changes. We have been active on the advocacy front, making multiple submissions and representations to State and Federal EV inquiries, and to relevant ministers, to ensure the downstream issues around electrification for our industry are factored into policy. We are working to ensure our industry is equipped to service and repair EV vehicles and our workforce is trained to work on these vehicles safely and proficiently.

To proactively facilitate awareness, training and commercial opportunities around the EV transition the AAAA secured a grant to purchase two Electric vehicles. Over the coming year we will be rolling out a specialised program to assist our members adjust and maximise the commercial opportunities that will come from electrification.

We were also involved in the development of the new Australian Standard for safe EV service and repair, and for the first time, we have joined forces with the Federal Chamber of Automotive Industries (FCAI), the Australian Automotive Dealer Association (AADA) and Motor Traders Association of Australia (MTAA) to present a united front to government around the EV transition.

We were proud to see our work collaborating with industry and government regulators result in the landmark new Gross Combination Mass (GCM) modification code in QLD, a huge win for motorists and aftermarket manufacturers. Our strategy is to be proactive, using evidence and engineering experience to present solutions rather than problems to regulators with positive results. Leveraging this experience, we are now working with other states and territories with the objective of introducing more practical and clearer GCM regulations.

Autocare 2023 was a massive highlight for our industry, a hugely valuable event for visitors, and a highly successful event both operationally

and financially. A record breaking 2,471 visitors attended the world-class training programs and the sold-out trade show, with visitor feedback overwhelmingly positive. We also hosted a groundbreaking vehicle modifications summit that brought together vehicle modifiers and regulators to help shape the future of national vehicle standards. We achieved our goal of targeting a younger demographic, and hosted a healthy spread of technicians, apprentices, and workshop owners.

The success of Autocare has provided a strong platform for the future growth of AAAA events, including Australia's largest automotive industry trade show, the Auto Aftermarket Expo and Collision Repair Expo, taking place 11 – 13 April 2024.

Our face-to-face networking and training activities were back in full swing, with 15 member events hosted across the country. With an average of 117 members in attendance per event, this shows the value these events to facilitate two-way communication with our members.

The Association achieved our financial and operational targets. Our membership retention rates remain pleasingly high at 97%, and we hit a new milestone with a total of 3,020 members, a 6% increase. Over the last three years the AAAA has achieved membership growth of 20%, a proud accomplishment, and one that demonstrates the value that members see in our role supporting their business and the wider industry.

From an Auto Innovation Centre (AIC) perspective, valuable new services have been launched to better serve the industry. This includes Autonomous Emergency Braking (AEB) testing for ADR98/00, as well as a full service GVM upgrade program, with significant demand for both of these services. The AIC's static testing for products has also shown considerable growth.

REPORT BY THE CHAIRMAN & CHIEF EXECUTIVE OFFICER

Revenue for the AIC has doubled over FY22/23, establishing a much stronger commercial footing as the centre builds its reputation as a critical supplier of testing services and 3D vehicle scans for aftermarket developers.

Our magazine, the Australian Auto Aftermarket Magazine (AAAM) remains the most widely read aftermarket industry magazine in Australia, and is an important advertising and communication tool for businesses. The magazine continues to be a strong revenue source for the Association, and achieved its yearly profitability targets.

Our membership benefits value proposition is stronger than ever. We significantly upgraded our unique car parc data tool to provide more granular and targeted information to support business growth, and our new EFTPOS program adds more value to our partner discount offers. Our highly regarded legal and HR Hotlines helped hundreds of members throughout the year with important advice. We are proud of the value of our membership benefits, and continue to review and improve our offering year on year.

We wish to thank the AAAA Board for their strategic direction, and the AAAA and AIC teams for their incredible efforts throughout the year supporting our members, and the broader industry. We also want to acknowledge Michelle Vizzutti who provided 30 years of outstanding service to the AAAA. We wish her good health and happiness in her well-earned retirement.

Our members are the lifeblood of the Association. We are humbled by the support and encouragement we receive from you,

and our team have your success at the heart of everything we do.

The AAAA is well positioned for the future as we continue to promote and protect our industry. We look forward with optimism to a prosperous future.

Mark Pedder

Australian Automotive Aftermarket Association

TREASURER'S REPORT

For the financial year 2022/2023, the Group generated a net loss profit after tax of \$1.3M (2022: profit \$400k 2021: loss \$1.98M). This represents a decrease of \$1.7M relative to the prior year. At 30 June 2023, the Group had a Net Asset position of \$2.498M (2022: \$3.799M) and a net cash inflow from operating activities of \$521k (2022: inflow of \$398k).

Building on the momentum of the last financial year, the activities of the Group continue to rebound from the uncertainty from the global pandemic which had a significant impact on the Group's activities and financial performance. The current year contained many highlights, culminating with the success of the Autocare Convention held in Brisbane, and the Association reaching a major milestone of 3,000 members in the financial year (2022: 2,842 and 2021: 2,661).

Revenues for the Association for 2022/2023 were \$3.43M (2022: \$6.186M 2021: \$2.28M). The Association is prone to cyclical results on a year-on-year basis due to the significant impact of the Australian Automotive Aftermarket and Collision Repair Expos ("Expos"), which are typically held every 2 years. The profits from the Expos allow the Association to provide ongoing support to our members, while addressing industry specific challenges. The Board of Directors acknowledges the significance and value of our member services and advocacy on industry issues. The Board is actively exploring new initiatives and remains confident that the Association can continue to invest in strategic initiatives that will ensure its long-term sustainability, relevance, and growth.

The Autocare Convention, held in June, was the second iteration of the event following a five-year hiatus due to the global pandemic. The event was a resounding success for the Association, with over 2,400 visitors attending the event, while generating \$1.1M in revenues (2018: \$1M). Membership revenues increased by 10% relative to the prior year (2023: \$1.126M 2022: \$971K 2021: \$865k), driven by growth in new members and continued support from our existing members, as evidenced by the high retention rates achieved. Revenues from Magazine related activities remains a significant contributor to the Group's results. The 10% decline in revenues from the prior year is largely consistent with historical trends, reflecting the reduced activity associated with an off-Expo year. Revenues of \$921K for the current year are consistent with FY21 results. Building on the success of the Motor Vehicle Information Scheme (MVIS) in Australia, contributions have been sought to assist New Zealand in introducing a similar law to protect independent workshops and consumers. We are also pleased to see a strong return to face-to-face networking and training events, which has resulted in a 100% increase on the prior year for Other Service revenues.

The AIC is in its third full year of operations, continues to solidify its position in the industry as a critical supplier of testing services and 3D Scanning services. Operating revenues have grown significantly (2023: \$1.19M, 2022: \$465k, 2021: \$400k), driven primarily by the growth of the new GVM Upgrade service offering and the increase throughput of static testing services. This growth has been further supplemented by the continued growth of the 3D Scan Data sales and Dynamic testing. During the year, the AIC received a grant from the Victorian State Government as part of its Zero Emissions Vehicle Commercial Sector Innovation Fund. The grant has been used to purchase electric vehicles (Ford F-150 Lightning and Polestar 2), chargers and equipment. This investment is expected to increase the knowledge of electric vehicle service, repair and product manufacturing and modification. The Board remains focused on continued growth as it the AIC expands its reach, pursues new market opportunities, and consolidates customer relationships.

TREASURER'S REPORT

Total expenditure for the Group was \$6.31M (2022: \$6.98M 2021: \$5.09M). The movements in expenditure from the prior year is largely attributed to the Expo being held in the previous year, and the Autocare Convention ("Autocare") being held in the current year. Additionally, there has been a general increase in activity, which has contributed to the increase in expenses across all categories. The Group continues to invest in its people to ensure it can deliver on the strategic plan for future growth and provide excellent value to its members.

The Group's Balance Sheet remains strong, with Net Assets of \$2.497M (2022: \$3.799M, 2021: \$3.399M). Cash and Cash equivalents totaled \$513K. During the period, the Group generated \$521k in cash outflows from operations (2022: inflow \$398k 2021: outflow \$981k). Despite the decrease in Net Assets, the Board is confident in the Group's ability to navigate the cyclical peaks and troughs of the cycle arising from the Expos.

The Group continues to invest in capital assets (2023 \$716k 2022: \$366k 2021: \$760k), by upgrading the 3D Scanner to enhance the Scanning division and acquiring several vehicles that are in high demand in the industry to provide valuable access for product development.

The Group's current liabilities have increased

from the prior year \$303k due to recognition of deposits for the upcoming Expo.

The 2022/2023 year was a positive year for the Group, despite the challenging external environment of rising interest rates and inflationary pressures. The resilience of the automotive aftermarket is evidenced by the success of Autocare and the Association exceeding 3,000 members during the year. The Group is well-positioned to continue the momentum from the past year into the next. Planning is well and truly underway for the Expos and the Board remains focused on growing the Association, supporting our members, and making a positive impact on the industry. We are confident in our ability to execute the Association's strategy through the cyclical peaks and troughs and provide excellent value to members and industry over the long term.

I would like to express my appreciation for the incredible efforts of the team at the AAAA and AIC led by our CEO, Stuart Charity. I would also like to acknowledge each member of the Board, for their commitment, time, effort, experience and direction to the Group and our Industry.

In closing, I would like to express my gratitude to our Association Members for your continued membership and support during these challenging and uncertain economic times. Your support is essential to the strength of our industry.

Don Cormack
Treasurer

DIRECTOR'S REPORT

The directors present their report together with the financial report of the consolidated entity of Australian Automotive Aftermarket Association Ltd ("AAAA") being the Company and its controlled entity ("the Group"), for the year ended 30 June 2023 and the auditor's report thereon. This financial report has been prepared in accordance with Australian Accounting Standards.

Directors names

The names of the directors in office at any time during or since the end of the year are:

Name	Appointment
Graham Scudamore-Smith	(Director since 2012, Resigned 24 Oct 2022)
Mark Pedder	(Director since 2013)
Adam Pay	(Appointed 2020)
Janelle Gonzalez	(Appointed 2018)
Wayne Bryant	(Appointed 2018)
Craig Magill	(Director since 2018, Resigned 24 Oct 2022)
Darren Robinson	(Appointed 2018)
Craig Bails	(Appointed 2019)
Don Cormack	(Appointed 2019)
Mike Carnemolla	(Appointed 2021)
Peter Rogers	(Appointed 2021)
April Harwood	(Appointed 24 Oct 2022)
Colette Kirby	(Appointed 24 Oct 2022)

The directors have been in office since the start of the year to the date of this report unless otherwise stated.

Results

The loss of the Group for the year after providing for income tax amounted to \$1,301,832 (2022: profit \$400,009).

Review of operations

The Group continued to engage in its principal activity, the results of which are disclosed in the attached financial statements.

Significant changes in state of affairs

There has been no significant changes in the Group's state of affairs during the financial year..

DIRECTOR'S REPORT

Company objectives

The Australian Automotive Aftermarket Association Ltd is a dedicated automotive industry association which represents the interests of manufacturers, re-manufacturers, distributors, importers, wholesalers, resellers and retailers of automotive aftermarket parts, accessories, tools and equipment, as well as providers of vehicle service, repair and modification services in Australia.

In the short term, the key strategic drivers of AAAA are to focus on activities that deliver membership value, retention and growth. These activities include:

- Delivery of a coordinated and effective Government relations strategy that represents the interests of members at all levels of Government;
- Delivery of high quality biannual trade expo and awards program that recognises excellence at both a company and individual level;
- Delivery of high quality biannual National Convention addressing the very latest in developments and global trends in our industry;
- Effective communications to members on major industry developments via publication of the AAAA magazine and other communication tools;
- The facilitation of export cluster activities and a range of market research services to ensure members are updated on major industry trends;
- Providing a range of high quality networking activities as well as a range of services and advice to assist AAAA member companies to be more sustainable; and
- Continued commitment to excellence in Governance, Leadership and strong financial management of AAAA.

In the long term, AAAA's key purpose is to promote the development of the automotive aftermarket industry through effective services, communication, representation, advocacy and other business development initiatives.

AAAA's strategy for achieving these objectives is outlined in the AAAA Strategic Plan, 2022-2023. The financial objectives of the Association are detailed in the AAAA 2022/2023 financial year budget which was approved at the August 2022 Board meeting.

Principal activities

The principal activity of the Group during the year was the provision of representation to the Australian automotive aftermarket industry, the dissemination of information of interest to members of the AAAA, bring together the automotive aftermarket industry, promote the adoption of new technologies and provide testing services to demonstrate product compliance with regulations.

There have been no other significant changes in the nature of these activities during the year.

Management discussion and analysis

(a) Key performance indicators

To help evaluate whether the activities AAAA established during the year have achieved its short-term and long-term objectives, AAAA uses the following key performance indicators to measure, analyse and monitor its performance:

	Target	Actual
Membership Revenue	\$1,178,000	\$1,067,221
Membership Retention	95%	96%
Minimum Number Member Events	18 Events	15 Events
Aftermarket Magazine Revenue	\$970,000	\$921,000
Overall Revenue	\$3,410,000	\$3,434,832
EBT profit / (loss)	(\$1,189,000)	(\$1,475,905)

DIRECTOR'S REPORT

(b) Company performance

The performance of the Company is measured on a range of criteria as detailed in the "Key Activities and Performance Targets 2022/2023". Key targets include membership retention and growth, delivery of membership services, communication, advocacy and representation, Aftermarket and Collision Repair expo, Autocare convention, magazine, performance and 4WD groups, import/export support and overall management.

Performance targets are developed in line with the strategic planning, business planning and budgeting process and approved by the Board. The remuneration committee of the Board meet with the CEO to review actual performance against targets. The remuneration committee then determine payment of KPI bonuses for the previous financial year for the upcoming financial year.

The Group was able to either meet or exceed most of the KPI's during the year through the delivery of planned activities and events. Despite the challenging and uncertain economic environment, the AAAA remains focused on supporting its members, which has resulted in high levels of member satisfaction and retention rates.

Likely developments

The Group expects to maintain the present status and level of operations.

Environmental regulation

The Group's operations are not regulated by any significant environmental regulation under a law of the Commonwealth or of a State or Territory.

DIRECTOR'S REPORT

Information on directors, treasurer and company secretary

Mark Pedder

Experience

Chairman

Mark is a Director of Pedders Suspension and has been involved with the automotive industry for over 30 years. He has been an AAAA Board member for over 10 years and has also been involved with the APMEC, PRTC 4WD Council and the Auto Expo Show Committee.

Wayne Brant

Experience

Deputy Chairman

Wayne is the Chief Executive Officer, Automotive Division of GPC Asia Pacific. He has been involved with the automotive industry for over 30 years and was appointed to his current role in January 2022. Through Repco and NAPA Auto Parts' parent, Genuine Parts Company, Wayne has a strong international network of Automotive Aftermarket professionals throughout Australasia, North America and Europe and is well positioned to leverage those relationships and add value to the industry.

Wayne is passionate about serving the automotive aftermarket and has been the Deputy Chairman of the Australian Automotive Aftermarket Association (AAAA) since December 2019.

Don Cormack

Experience

Treasurer

Don was a Director and Chief Executive Officer of the ADRAD Group of Companies until 15 August 2023. Don has been actively involved in the automotive industry for over 16 years since joining ADRAD.

Don was actively involved in the promotion of the automotive aftermarket industry. Prior to joining ADRAD Don was a Partner in an Accounting Firm and holds formal qualifications as a Chartered Accountant. He is also a member of the Taxation Institute of Australia and Australian Institute of Company Directors.

Janelle Gonzalez

Experience

Secretary

Janelle is the CEO and co-founder of Blue Toro. She has 10 years' experience in the automotive aftermarket and 19 years' experience in senior roles within major financial and marketing organisations globally, specialising in disruptive technology. Janelle is an author; a multi-award winner for product and market innovation; and is a regular in the media advocating for the aftermarket industry and consumer rights.

Members guarantee

The Company is incorporated under the Corporations Act 2001 and is a company limited by guarantee. If the company is wound up, the Constitution states that each Member (or within one year after they stop being a Member) is required to contribute to a maximum of \$50 each towards meeting any outstandings and obligations of AAAA. At 30 June 2023, the maximum amount for which serving Members were liable was \$151,000 based on 3,020 Members (2022: \$142,100 based on 2,842 Members).

Indemnification of officers

During or since the end of the year, the company has given indemnity or entered an agreement to indemnify, or paid or agreed to pay insurance premiums in order to indemnify the directors of the company against Civil Liability Professional Indemnity, Office Bearer's Liability, Association Reimbursement, Association

Liability, Employee Practice Liability, Legal Representation, Fidelity and Tax Audit for a limit of \$2 million on any one claim and \$5 million in the aggregate during the period of insurance.

Further disclosure required under section 300(9) of the Corporations law is prohibited under the terms of the contract.

Indemnification of auditors

No indemnities have been given or insurance premiums paid, during or since the end of the year, for any person who is or has been an auditor of the company.

Auditor's independence declaration

A copy of the auditor's declaration under section 307C of the Corporations Act 2001 in relation to the audit for the financial year is provided with this report.

Proceedings on behalf of AAAA

No person has applied for leave of Court to bring proceedings on behalf of the company or intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or any part of those proceedings.

Subsequent events

No matters or circumstances have arisen since the end of the financial year that have significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in future financial years.

Signed on behalf of the Board of Directors.

The accompanying notes form part of these concise financial statements

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The concise financial report is a general purpose financial report that has been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standards – Simplified Disclosures. This includes compliance with the recognition and measurement requirements of all Australian Accounting Standards, Interpretations and other applicable authoritative pronouncements of the Australian Accounting Standards Board and the disclosure requirements of AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities.

The concise financial report covers Australian Automotive Aftermarket Association Ltd and its controlled entity as a consolidated entity. Australian Automotive Aftermarket Association Ltd is a company limited by guarantee, incorporated and domiciled in Australia. Australian Automotive Aftermarket Association Ltd ("the Company" or the "Parent") is a not-for-profit entity.

The financial report was approved by the directors as at the date of the directors' report.

The following are the significant accounting policies adopted by the Group in the preparation and presentation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

(a) Basis of preparation of the financial report

Historical Cost Convention

The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets and liabilities as described in the accounting policies.

(b) Going Concern

The financial report has been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The Group incurred a loss from ordinary activities of \$1,301,832 during the year ended 30 June 2023, and as at that date the Group's current liabilities exceeded current assets by \$396,701.

In determining the basis of preparation for the financial report, the Directors have assessed the financial performance, future operating plans, financial forecasts, and existing financial position. The Directors believe there are reasonable grounds to expect the Group to be able to continue as a going concern for at least 12 months from the date of issue of the financial report, which contemplates the continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business. As a result of the above, the Directors have concluded that the going concern basis is appropriate.

(c) Principles of consolidation

The consolidated financial statements are those of the Group, comprising the financial statements of the parent and its controlled entity. The Group controls an entity when it is exposed, or has rights to, variable returns from

its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are prepared for the same reporting period as the parent entity, using consistent accounting policies.

All inter-company balances and transactions have been eliminated upon consolidated. Subsidiaries are fully consolidated from the date which control is established.

(d) Revenue recognition

Revenue from contracts with customers

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from the rendering of services is recognised upon the delivery of the service to the customers.

Membership fees

The membership year is based on the financial year, commencing 1 July. Membership fees are payable annually in advance. Only those membership fees, which are attributable to the current financial year, are recognised as revenue. Fees relating to a period beyond the current financial year is shown in the Consolidated Statement of Financial Position as unearned income under the heading Other Liabilities.

Exhibition revenue

Exhibition revenue is recognised at a point in time being the date the exhibition is held. Exhibition revenue relating to a period beyond the current financial year is shown in the Consolidated Statement of Financial Position as unearned income under the heading Other Liabilities.

Other Revenue and other income

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate for are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

Lease revenue from operating leases is recognised on a straight-line basis over the lease term.

Interest revenue is recognised when it becomes receivable on a proportional basis taking into account the interest rates applicable to the financial assets.

Other revenue is recognised when the right to receive the revenue has been established.

All revenue is measured net of the amount of goods and services tax (GST).

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (Continued)

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Income tax

Current income tax expense or revenue is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities.

In assessing the income tax liability, the Company applies the principles of mutuality to its revenues and expenses. Revenue derived from member services provided, represents mutual income and is not subject to income tax. Expenses associated with such mutual activities are not tax deductible for income tax purposes. All other receipts and payments of the Group are classified for income tax purposes, in accordance with tax legislation.

Deferred tax assets and liabilities are recognised for temporary differences at the applicable tax rates when the assets are expected to be recovered or liabilities are settled. Deferred tax liabilities are not recognised if they arise from the initial

recognition of goodwill. Deferred income tax is also not recognised if it arises from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

Tax consolidation

The Parent entity and its controlled entity have formed an income tax consolidated group under tax consolidation legislation. The parent entity is responsible for recognising the current tax liabilities and deferred tax assets arising in respect of tax losses, for the tax consolidated group.

(f) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the item of expense. Receivables and payables in the Statement of Financial Position are shown inclusive of GST. Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority, are classified as operating cash flows.

(g) Financial Instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. For financial assets, this is equivalent to the date that the Group commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value adjusted for transaction costs, except where the instrument is classified as fair value through profit or loss, in which case transaction costs are immediately recognised as expenses in profit or loss.

Trade and other receivables

Trade and other receivables arise from the Group's transactions with its customers and are normally settled within 30 days.

Consistent with both the Group's business model for managing the financial assets and the contractual cash flow characteristics of the assets, trade and other receivables are subsequently measured at amortised cost.

(h) Intangible assets

Costs incurred in developing internally generated scan data packs are initially recognised as an asset, and are subsequently amortised over their estimated useful lives, commencing from the time the asset is available for use. Amortisation is recognised on a diminishing value basis over their estimated useful lives, which range from 2-3 years. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in the profit or loss in the period in which the expenditure is incurred.

Subsequent to initial recognition, scan data packs recognised as an intangible asset are measured at cost, less accumulated amortisation and any accumulated impairment costs.

(i) Property, plant and equipment

Each class of property, plant and equipment is measured at cost or fair value less, where applicable, any accumulated depreciation and any accumulated impairment losses.

Property

Property is measured at cost, less accumulated depreciation and any accumulated impairment losses.

Plant and equipment

Plant and equipment is measured at cost, less accumulated depreciation and any accumulated impairment losses.

Leasehold improvements

Leasehold improvements is measured at cost, less accumulated depreciation and any accumulated impairment losses.

Motor vehicle

Motor vehicle is measured at cost, less accumulated depreciation and any accumulated impairment losses.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (Continued)

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Property, plant and equipment (continued)

Software and Website development

Software and Website development is measured at cost, less accumulated depreciation and any accumulated impairment losses.

Depreciation

The depreciable amount of all other property, plant and equipment is depreciated over their estimated useful lives commencing from the time the asset is held available for use, consistent with the estimated consumption of the economic benefits embodied in the asset.

Class of fixed asset	Depreciation rates	Depreciation basis
Buildings at cost	2.5%	Diminishing value
Plant and equipment at cost	7 – 50%	Diminishing value & Straight line
Leasehold improvements at cost	20%	Straight line
Website development at cost	33 - 40%	Straight line
Motor vehicles at cost	25 – 40 %	Diminishing value

(j) Investment properties

Investment properties comprise buildings held for the purpose of earning rental income or for capital appreciation, or both.

An Investment property is initially recognised at cost. After initial recognition, the investment property is measured at revalued amounts, being the fair value at the date of the revaluation, less any subsequent accumulated depreciation and any accumulated impairment losses. At each reporting date the carrying amount of the asset is reviewed to ensure that it does not differ materially from the asset's fair value at reporting date. Where necessary, the asset is revalued to reflect its fair value.

Increases in the carrying amounts arising on revaluation of buildings are recognised in other comprehensive income and accumulated in equity. To the extent that the increase reverses a decrease of the same asset previously recognised in profit or loss, the increase is recognised in profit or loss. Decreases that offset previous increases of the same asset are recognised in other comprehensive income; all other decreases are recognised in profit or loss.

(k) Employee benefits

Short-term employee benefit obligations

Liabilities arising in respect of wages and salaries, annual leave and other employee benefits (other than termination benefits) expected to be settled wholly before twelve months after the end of the reporting period

are measured at the (undiscounted) amounts based on remuneration rates which are expected to be paid when the liability is settled. The expected cost of short-term employee benefits in the form of compensated absences such as annual leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as payables in the statement of financial position.

Long-term employee benefit obligations

The provision for other long-term employee benefits, including obligations for long service leave and annual leave, which are not expected to be settled wholly before twelve months after the end of the reporting period, are measured at the present value of the estimated future cash outflow to be made in respect of the services provided by employees up to the reporting date. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee turnover, and are discounted at rates determined by reference to market yields at the end of the reporting period on high quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation. For currencies in which there is no deep market in such high-quality corporate bonds, the market yields (at the end of the reporting period) on government bonds denominated in that currency are used. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the change occurs.

Other long-term employee benefit obligations are presented as current liabilities in the statement of financial position if the Group does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur. All other long-term employee benefit obligations are presented as non-current liabilities in the statement of financial position.

(l) Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right of use assets are initially measured at their cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets include the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease liabilities are initially measured at the present value of the lease payments over the lease term using the Group's incremental borrowing rate. Lease liabilities are subsequently measured at the present value of the remaining lease payments adjusted to reflect changes in lease terms or payments.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (Continued)

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(l) Leases (continued)

The Group recognises depreciation expense of right-of-use assets and interest expense associated with lease liabilities in lieu of expensing lease payments made.

Leases of 12-months or less

Lease payments made in relation to leases of 12-months or less (for which a lease asset and a lease liability has not been recognised) are recognised as an expense on a straight-line basis over the lease term.

The Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset are classified as operating leases.

Operating leases

Underlying assets subject to operating leases are presented in the statement of financial position according to the nature of the underlying asset.

Lease payments from operating leases are recognised as income on a straight-line basis over the lease term and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct cost incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

(m) Comparatives

Where necessary, comparative information has been reclassified and repositioned for consistency with current year disclosures

NOTE 2: MANAGEMENT DISCUSSION AND ANALYSIS

The loss for the Group for the year after providing for income tax amount to \$1,301,832 (2022: profit: \$400,009)

The Company's performance for the year and key performance indicators are set out in further detail on pages 9 and 10 of the Directors report.

DIRECTOR'S DECLARATION

The directors of the Group declare that:

1. In the Directors opinion, the concise financial statements and notes thereto, as set out on pages 8 - 21, are in accordance with the *Corporations Act 2001*:
 - (a) comply with Australian Accounting Standards – Simplified Disclosures and the *Corporations Regulations 2001*; and
 - (b) give a true and fair view of the financial position of the consolidated entity as at 30 June 2023 and its performance for the year ended on that date.
2. In the directors' opinion there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Don Cormack
Director

Mark Pedder
Director

Dated this: 28 September 2023

AUDIT REPORT

Opinion

We have audited the concise financial report of Australian Automotive Aftermarket Association Limited (the "Company") and its controlled entity (the "Group"), which comprises the consolidated statement of financial position as at 30 June 2023, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows for the year then ended, and related notes, derived from the financial report of the Group for the year ended 30 June 2023 and the discussion and analysis. In our opinion, the accompanying concise financial report, including the discussion and analysis of the Group, complies with Accounting Standard AASB 1039 *Concise Financial Reports*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* "the Code" that are relevant to our audit of the concise financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Concise Financial Report

The concise financial report does not contain all the disclosures required by the Australian Accounting Standards in the preparation of the financial report. Reading the concise financial report and the auditor's report thereon, therefore, is not a substitute for reading the financial report and the auditor's report thereon.

The Financial report and Our Report Thereon

We expressed an unmodified audit opinion on the financial report in our report dated 28 September 2023.

Responsibilities of the Directors for the Concise Financial Report

The Directors are responsible for the preparation of the concise financial report in accordance with *Accounting Standard AASB 1039 Concise Financial Reports*, and the *Corporations Act 2001*, and for such internal control as the Directors determine is necessary to enable the preparation of the concise financial report.

Auditor's Responsibilities for the Audit of the Concise Financial Report

Our responsibility is to express an opinion on whether the concise financial report, in all material respects, complies with AASB 1039 *Concise Financial Reports* and whether the discussion and analysis complies with AASB 1039 *Concise Financial Reports* based on our procedures, which were conducted in accordance with Auditing Standard ASA 810 *Engagements to Report on Summary Financial Statements*.
